6.4 One-time fees: implementation, data migration, training

The one-time **Implementation and setup** fee (SAR 10,000 at 700 employees, SAR 20,000 at 850 and 1,001) covers implementation, employee data migration and initial training of your HR team and employees. There are no separate migration or training fees. Ongoing training continues through the support package. The fee is waived on the 3-year offer.

6.5 Optional module

Module	What it includes	Price (SAR, excl. VAT)
Hiring Management (ATS)	AI-powered CV screening that extracts skills and experience, then scores and ranks each candidate. One-way video interviews candidates record at their convenience. Custom hiring flows with automated follow-ups, approval and rejection emails, and instant offers with e-signature. Branded career pages. Hired candidates move straight into onboarding. Available with the platform or on its own.	Priced to APSCO's hiring needs, volumes and scope. To be discussed during the demo.

Hiring volumes, roles and hiring flows set the ATS price, so we scope it with your team during the demo rather than quote a fixed figure here.
